

ANNOUNCEMENT WORKSHOP 77 HIGH END ANALYSIS OF BUILDINGS

On Saturday 29th & 30th March 2019 @ 9:00am To 6:00pm
CIRCOT - 5, Adenwala Road, Near 5 Gardens, Matunga, Mumbai- 400019

Greetings of the season!

Building construction especially in metro cities is in great demand today from various sectors including Residential, Commercial, Offices, Hotels, Hospital, School and Colleges etc. Each sector has peculiar requirements for optimum use of that particular type. This results in to different kinds of 'Framing Systems'. The height of such building depends on various factors including Overall Economics, Consumption of full FSI, Iconic Nature, Contemporary Architecture Other Complexities are also generated because of above mentioned factors.

In view of the same, EFC is glad to announce

PROPOSED SPEAKERS:

- **Prof. Dr. Yogendra Singh** - Professor, Department of Earthquake engineering, IIT, Roorkee
- **Mr .M G Gadgil** - Sr. Advisor, Retired HOD, Structural dept, VJTI, Mumbai
